**“Drone Theory & Design” Curriculum ONLY (16 Units/Full Semester) ........ $1599**

This is a full 16-Unit curriculum based on the engineering design process, meaning the students work in teams to design and solve activity challenges. Each unit contains student handouts, PowerPoint presentations, vocabulary lists with quizzes, STEM-based student activities, final unit quiz, and teacher lesson plans. This curriculum comes with the option to purchase 230mm “Ready-to-Fly” Indoor Toy Drones or choose RealFlight™ Drone Flight Simulators to enhance the student’s experience. This full 16-Unit “Drone Theory & Design” Curriculum is written as a semester-long course if every activity is carried out.

- “Drone Theory & Design” Curriculum (w/5 Ready-to-Fly Drones) .......................................................... $1999
- “Drone Theory & Design” Curriculum (w/10 Ready-to-Fly Drones) ...................................................... $2399
- “Drone Theory & Design” Curriculum (w/20 Ready-to-Fly Drones) ...................................................... $3199
- “Drone Theory & Design” Curriculum (w/1 RealFlight™ Drone Flight Simulator Software) .................. $1829

*(NOTE: Add $230 for each additional simulator and $80 for each additional RTF drone)*

**Drone Design “Lite” Curriculum ONLY (8 Units)................................................................. $999**

This is a “lighter” version of the full “Drone Theory & Design” Curriculum. By comparison, this version has been truncated to 8 Units which reduced the content and activities. Unlike the 16-Unit curriculum above, the Drone Design “Lite” Curriculum is not based on the engineering design process. Being a “shorter” curriculum, Drone Design “Lite” is perfect for after-school and summer programs, or for schools who want to incorporate drone design into their current coursework. 230mm “Ready-to-Fly” Indoor Toy Drones may be purchased as add-ons or choose RealFlight™ Drone Flight Simulators to complement the Drone Design “Lite” Curriculum.

*(see ADD-ON prices below).*

**“Drone Essentials” Curriculum ONLY (5 Units) ............................................................ $399**

This is a cost-effective way to introduce drone theory and flight basics into your current curriculum. This 5-unit package comes complete with student handouts, PowerPoint presentations, vocabulary lists and quizzes, unit activities, and overall unit quizzes. There is an option to purchase 230mm “Ready-to-Fly” Indoor Toy Drones as add-ons or choose RealFlight™ Drone Flight Simulators to complement the curriculum to provide your students with a meaningful application of their knowledge.

- “Drone Essentials” Curriculum (w/1 RealFlight™ Drone Flight Simulator Software) ....................... $629
- “Drone Essentials” Curriculum (w/ 5 Ready-to-Fly Drones) ........................................................... $799
- “Drone Essentials” Curriculum (w/ 10 Ready-to-Fly Drones) ........................................................... $1199

*(NOTE: Add $230 for each additional simulator and $80 for each additional RTF drone)*

**“Learn-to-Fly” Curriculum ONLY (8 Units) ......................................................... $799**

This 8-unit package comes complete with student handouts, PowerPoint presentations, vocabulary lists and quizzes, unit activities, and overall unit quizzes. Units 4 & 5 focus on progressive indoor activities intended to enhance flight skills. The toy drones recommended for the "Learn-to-Fly" curriculum are intended to be flown indoors only. Because the flying occurs indoors, these units are not under FAA oversight. This curriculum is perfect for after-school and summer programs. Ready-to-Fly Drones are pre-assembled out of the box and easy to fly!

- w/5 Ready-to-Fly Drones ................................................................................................................. $1199
- w/10 Ready-to-Fly Drones .............................................................................................................. $1599
- w/20 Ready-to-Fly Drones .............................................................................................................. $2399

*(NOTE: Add $80 for each additional RTF drone)*
**“UAS Remote Pilot Certification (FAA Part 107 Training)” (12-Unit Curriculum w/Supplements)**

Training curriculum for the FAA’s Remote Pilot Certification. Semester-long course. Comes with the option to purchase 230mm “Ready-to-Fly” Indoor Toy Drones or RealFlight™ Drone Flight Simulators to enhance the student’s experience.
